THIRUVANANTHAPURAM: Technopark-based MobME Wireless has got approval and recognition from the Department of Science and Industrial Research (DSIR), Ministry of Science and Technology, for their in-house Research & Development facility. MobME had set up an in-house R&D facility to continuously innovate and develop state-of-the-art products for the telecommunications industry.

MobME is the first telecom mobile value-added services company to have a full-fledged R&D facility, certified by the Central Dept of Govt of India. The company received

this certification and recognition based on the scheme announced by the DSIR with the objective to promote in-house R&D in India within private sector companies. "Today's scenario demands companies to have innovative DNA inside the company that will lead to innovative R&D and eventually innovative products with Indian IPR. MobME is one of the first telecom value-added service companies who went ahead and created an R&D environment within their organisation and will continue to drive technology innovation with their independent R&D facility," said A S Rao, director Innovations at IIM, Ahmedabad, and Independent Director at MobME Wireless.
